13. Rasmussen DN, Unger HW, Bjerregaard-Andersen M, da Silva

34. Hanifi SMA, Ravn H, Aaby P, Bhuiya A. Where girls are less likely to be fully vaccinated than boys: Evidence from a rural area in Bangladesh. Vaccine 2018; 36(23): 3323-30.

36. Gronborg HL, Jespersen S, Egedal JH, Correia FG, Medina C,

74. Nordentoft PB, Engell-Sorensen T, Jespersen S, Correia FG,

105. Benn CS. We Need Studies of the Mortality Effect of Vitamin A Supplementation, Not Surveys of Vitamin A Deficiency. Nutrients 2017; 9(3).

154. Fisker AB. The question should be whether the timing of vaccination optimises the impact on child health. BMJ 2016; 352: i713.

178. Rieckmann A, Benn CS. Making the most of measles vaccination, Archives of Disease in Childhood. eLetter BMJ 2015.

179. Rieckmann A, Benn CS. Making the most of measles vaccination, Archives of Disease in Childhood. eLetter 2015.

Effects of low birth weight on time to BCG vaccination in an urban poor settlement in Nairobi, Kenya: an observational cohort study. 

193. Jespersen S. PI or NNRTI as first-line HIV treatment in a West African population with low adherence – the PIONA trial; 2015.

206. Clarke MS, Benn CS. Unusual positive effects from vaccines need to be reported - They represent a resource that could lead to new treatment strategies. Vaccine 2015; 33(28): 3162-3.

221. Aaby P, Benn CS. Should we introduce a malaria vaccine which may increase child mortality? JAMA 2014; 311(7): 24303.

258. Fisker AB, Ravn H, Rodrigues A, Ostergaard MD, Bale C, Benn CS, et al. Co-administration of live measles and yellow fever vaccines and inactivated pentavalent vaccines is associated with increased mortality compared with measles and yellow fever vaccines

279. Rudolf F. The bandim TBscore – reliability, further development and evaluation of potential uses. Århus: University of Aarhus; 2013.

349. Aaby P, Benn CS. Non-specific and sex-differential effects of routine vaccines: What evidence is needed to take these effects into consideration in low-income countries? Human Vaccines 2011; 7(1).

390. Poulsen A, Roth A. ‘Guinea-Bissau’ in Mosby’s ‘Cultural Health

404. Benn CS. We need to understand more about the factors which modify the effect of vitamin A. Sight and Life Magazine 2010; 1: 28-9.

428. Rabna P. Soluble Urokinase Plasminogen Activator Receptor (suPAR) as a Marker of Tuberculosis Treatment efficacy and Potential Prognostic marker for Survival in individuals with a TB negative diagnosis. A prospective, Longitudinal Cohort Study in Suspected Pulmonary Tuberculosis patients in Guinea-Bissau. Copenhagen: University of Copenhagen; 2009.

442. Agersgaard J. Randomised study of not providing diphtheria-tetanus-pertussis vaccine together with or after measles vaccination: Impact on morbidity and growth. Aarhus: Aarhus University; 2009.

al. DTP with or after measles vaccination is associated with increased in-hospital mortality in Guinea-Bissau. *Vaccine* 2007; 25(7): 1265-9.

469. Aaby P. Is susceptibility to severe infection in low-income countries inherited or acquired? *Journal of Internal Medicine* 2007; 261(2).

8.

Larsen JM, Benn CS, Fillie Y, van der Kleij D, Aaby P, Yazdanbakhsh M. BCG stimulated dendritic cells induce an interleukin-10 producing T-cell population with no T helper 1 or T helper 2 bias in vitro. Immunology 2007; 121(2): 276-82.

520. Sodemann M, Biai S, Jakobsen MS, Aaby P. Knowing a medical doctor is associated with reduced mortality among sick children consulting a paediatric ward in Guinea-Bissau, West Africa. Tropical Medicine & International Health 2006; 11(12): 1868-77.

549. Westergaard T. Westergaard et al. Respond to "Sibship Effects and a Call for a Comparative Disease Approach". American Journal of Epidemiology 2005; 162(2): 139-.

587. Stensballe L, Poulsen A, Nante E, Jensen IP, Kofod PE, Jensen H, et al. Mothers may transmit RSV infection more easily or severely to sons than daughters: community study from Guinea-Bissau. Scandinavian Journal of Infectious Diseases 2004; 36(4):...
291-5.

713. Cisse B. Measles antibody levels among women of fertile age and decay of maternal antibodies in a West African population exposed to natural measles and measles immunisation. London: London School of Hygiene and Tropical Medicine; 2001.

727. Dalsgaard A, Forslund A, Petersen A, Brown DJ, Dias F,

895. Aaby P. Bandim: An unplanned longitudinal study. Seminar on Socio-Cultural determinants of morbidity and mortality in developing
countries: The role of longitudinal studies; 1991; Saly Portudal, Senegal: IUSSP, Liege; 1991.
